# ADMISSIONS 101: TELLING YOUR STORY FOR COLLEGE

In this workshop, students will develop a deeper understanding of the college admissions process and learn how to tell their unique stories in ways that compel admissions officers. Students will receive expert advice about each phase of the admissions cycle, including strategic planning of academics and extracurriculars, establishing strong relationships, building the college list, planning campus visits, writing the personal statement and supplements, presenting experience through a CV or portfolio, and developing interview skills. By the end of the week, students will have created a personalized plan for their next steps toward gaining admission to the ideal school. Following the workshop, students will have the opportunity to continue to work one-on-one with Tori to further craft their stories for college.
