AP BIOLOGY BOOT CAMP

Our AP Biology Boot Camp prepares students for success in advanced high school Biology courses. We teach key ideas such as experimentation and the scientific method in exciting ways, ensuring that students begin their fall semester with an understanding of not just the “what” of biology but also the “why” and the “how.”

“PERHAPS THE CITY’S PREMIER TUTORING SERVICE.” —THE NEW YORK TIMES

- The online workshop runs from **June 24–28 or August 17–21** from 1:30–3:00 p.m. EDT
- Topics include: molecular biology (DNA, RNA protein), cell biology (mitosis and meiosis, development and function), ecology and evolution, cell respiration and photosynthesis, and genetics and heredity
- The course costs **\$1,200 per session**
- Class size limited to **5 students**

“THE INSTITUTE FOR ADVANCED STUDY OF TUTORING SERVICES.” —THE NEW YORKER

Steven earned a B.S. in Molecular, Cellular, and Developmental Biology and a B.A. in History at Yale University. While an undergrad at Yale, Steven studied gene regulation in immune cells at the medical school and spent a year after graduation as a postgraduate research associate in immunology at Yale Medical School. Steven is currently completing an M.D./Ph.D. at Stony Brook University. His research for the genetics graduate program is at Cold Spring Harbor Laboratory and focuses on breast cancer. Steven never ceases to be amazed by the complexity and beauty of biology and cherishes learning, teaching, and exploring this together with his students.

Steven Lewis, Instructor
